

Don't take our word for it. TAKE THEIRS.

"I created safety, educational and information brochures and distributed them using the APGA Natural Gas Marketing Center (NGMC). It took me approximately 10 minutes to create and widely distribute these professional quality brochures using the tools I, and all subscribers have available on NGMC. The NGMC is so easy to use and lets me accomplish in minutes what took days using in-house or ad agency resources."

Dana Bennett

Sevier County Gas District

"The Natural Gas Marketing Center is a great tool which allows ESP the flexibility of creating (in-house) brochures, bill inserts, ad campaigns, and a variety of other options to assist with our marketing and sales efforts. The NGMC compliments the advertising products and services provided by our advertising agent, and it allows ESP to save costs including exemption from Florida's sales tax."

Linda Wiggins

Energy Services of Pensacola

"APGA's Natural Gas Marketing Center is a resourceful tool that allows anyone to easily create and distribute professional quality brochures at the touch of a button. Using the NGMC will allow for promotional/safety campaigns to be done in-house saving time and money."

Jennifer Codd

City of Mesa
